KYND

KYND ON & Risk Reports

In partnership with

USIP United Schools Insurance Program **SIAW**

Cyber risk doesn't lurk in the shadows. It hides in plain sight.

USIP and SIAW have partnered with cyber risk expert KYND to offer you free access to KYND ON, a continuous monitoring platform that keeps you on top of your organization's cyber exposure.

KYND is a cyber risk management provider, leading the way in transforming complex cyber risk data into clear, actionable insights.

What is KYND ON?

KYND ON is your secret weapon to help you understand and prevent cyber risks that may affect your organization, simply and quickly. KYND's pioneering technology not only gives instant visibility of your organization's external and internal cyber posture, but also provides continuous risk monitoring and real-time alerts that help effectively reduce risk exposure and keep digital threats at bay 365 days a year.

What are KYND Reports?

KYND Reports are designed with one thing in mind – to help you and your organization stay ahead of the ever-evolving cyber threat landscape. Powerful yet completely non-intrusive, these reports help you instantly discover cyber risks or vulnerabilities that increase susceptibility to cyber-attacks and provide helpful, clear recommendations on how to address these issues.

About KYND

Founded in 2018 with a mission to help organizations see, understand, and manage cyber risks easier and quicker than ever before, KYND has emerged as a trusted cyber partner for global insurance players, offering actionable cyber risk intelligence combined with expert advisory support to help their clients take firm control of cyber risks.
